

# Searches

By default all search result will display exact matches to your search criteria only.

If you search for JOHN SMITH in the Master Name of Arrest the only records displayed will contain John SMITH and not JOHNTHAN SMITH or JOHN SMITHED.

The % is wild card can be utilized to expand your search result.

Searching First name = JOHN% and Last Name = SMITH will return both JOHNATHN SMITH AND JOHN SMITH.

Searching First name = JOHN% and Last Name = SMIT% will return both JOHNATHN SMITH AND JOHN SMITH as well as any record where the Last Name starts with SMIT.

The % can also proceed a search parameter. Searching for Last Name = %SKI will return persons with last name ending with SKI .

The % can be utilize at the beginning and end or a search parameter. Search for %c12% in the license plate would display all plate that contain C123 as example ABC1234.

Multiple filed can be searched at the same time. Search the Master Name for %c12% in the license plate and Sex = M (male) and Hair B (Brown) would return arrests or master name entries where the person is a male with brown hair and the plate contains c12. This search enhancement make is possible to locate records would been very difficult without this new search engine. CAD, RMS and OLEN all utilize this new search engine.
